About Us

Savice Solutions is a woman-owned small business offering strategic support services across multiple industries—including government, construction, healthcare, and technology. Led by certified PMP and Computer Science graduate Morrilyn Savice, the company blends project leadership with hands-on technical expertise to meet a range of operational needs.

From emergency cleanup and municipal maintenance to software integration and systems QA, Savice Solutions is built for responsiveness, reliability, and results. Whether serving as a prime or supporting subcontractor, we specialize in bridging the gap between field operations and executive coordination—delivering turnkey solutions with agility and professionalism.

Our sole proprietor model allows for rapid mobilization and personalized service, making us an ideal partner for agencies and businesses seeking dependable, detail-driven support on both short-term and ongoing projects.

Core Services

Emergency & Event Cleanup

- Post-event sanitation and waste removal
- Rapid-response cleanup for venues and demonstrations
- Biohazard and hazardous waste containment

- Porta-potty servicing and public sanitation
- Emergency debris removal

Municipal Grounds & Property Maintenance

- Lawn care and seasonal maintenance
- Debris collection and removal
- Graffiti removal and beautification
- Sidewalk and parking lot upkeep

Project Management & Coordination

- PMP-certified planning and leadership
- ERP implementation
- Cross-department coordination
- Vendor sourcing and subcontractor support
- Construction, healthcare, and IT oversight experience

IT, Software & Web Services

- Hardware installation and sanitation
- Network setup and workstation troubleshooting
- Website design and updates
- SEO tuning and accessibility support
- System integration and SaaS onboarding
- Email and CRM configuration

Systems QA & Quality Assurance

- Testing of software systems, apps, and tools prior to deployment
- Process audits for consistency and compliance
- Bug tracking and issue documentation
- User experience (UX) and interface validation
- QA reporting and improvement recommendations

Differentiators

- PMP-certified leadership with field-tested experience
- Rapid mobilization and flexible response capabilities
- Technical foundation with hands-on operations knowledge
- Woman-owned, Massachusetts-based sole proprietorship

Past Performance

Savice Solutions is built on a foundation of cross-industry execution and coordination. Morrilyn Savice, PMP, has managed diverse projects in construction, healthcare, and technology aligning stakeholders, resources, and timelines to deliver results.

With a degree in Computer Science and a strong grasp of both business and IT systems, she has led initiatives involving technical deployment, field crew coordination, and vendor oversight. This background allows Savice Solutions to operate confidently between execution and leadership—delivering responsive, reliable outcomes for clients and partners.
