

# Savice Solutions

## Capabilities Statement

Savice Solutions is a woman-owned small business based in Massachusetts, providing dependable, cross-functional support for government and commercial contracts. With core strengths in project management, IT systems, and facility operations, we deliver high-quality services through streamlined coordination and proven execution methods. Our model supports rapid response, compliance, and consistent performance across diverse work environments.

## Core Competencies

- IT, Software & Web Services
- Emergency & Event Cleanup
- Municipal Grounds & Property Maintenance
- Project Management & Coordination
- Systems QA & Quality Assurance

## Differentiators

- PMP-led operations with technical and field-based execution
- Reliable delivery across multiple sectors including cleanup, IT, and support services
- Combines strategic oversight with boots-on-the-ground readiness
- Agile and quick to mobilize for both urgent and ongoing work
- Strong coordination skills with proven vendor and resource management experience

## Experience

Savice Solutions delivers contract-ready services through coordinated project management and a reliable network of seasoned service providers. Our trusted delivery partners bring years of experience across facilities, sanitation, IT, and property maintenance—with a consistent track record of professionalism, compliance, and timely execution.

Under the leadership of PMP-certified Managing Director Morrilyn Savice, who also holds a degree in Computer Science, every project is managed with attention to detail, quality assurance, and operational follow-through. We ensure seamless coordination, clear communication, and high standards from planning to completion.
